

QVC's 1st On-Air Guest!really, it was me!

I still can't believe that I hold this place in the history of QVC! What a journey I have had! QVC was on the air for approx. 1 year when my video distribution company presented the QVC buyer at the time – Kim Patterson – with my workout video titled WALK Aerobics ...a unique way to walk for fitness ...in your homewithout a treadmillor any expensive equipment. You can walk “miles” but stay right in front of your TV!

Ms. Patterson was just about to “REJECT” this product, her concern was....how will the host describe this concept ???

Is it walking around your kitchen ???

What is this walk at home???

The representative at my video distribution co. (Shelly Rudin) pleaded ... “please allow Leslie to show you how this is done ...it really is a great product for the QVC audience!” Ms. Patterson allowed me to show her a demo – she became a “walk at home believer” in just minutes!

She asked Mr. Segel (Mr. Joseph Segel – founder of QVCfor those that need a reminder)if I could go ON-AIR with the host to demo my walking workouts. HE SAID YESand boy can I tell you that my mission to get more people “WALKING” made a major leap forward This 1st appearance was with host Steve Bryantwe sold out in minutesMr. Segel and I met directly after that showhe asked “where are you from?” I said... “near Pittsburgh PA”

....I will never forget the kindness he showedand the big LIGHT BULB that went on over Mr. Segel's head!!! I think that was the moment that showed – the creator of the product adds so much to the presentation of the product! WOW! I have had more fun, more friendships because of my beginnings at QVCI would bring my son, he would crawl around on the steps of the stagewhile I was on airwith the producer just inches from me THANKS so much Mr. SegelTHANKS QVC!
